ABSTRACT

This study entitled “The Syntax Analysis of Adverb of Manner Found in the Novel “*Harry Potter*”. The form of adverb of manner and its positions of adverb of manner found in the clause and sentence structure found in the novel entitled “*The Lost Symbol*” are analyzed. The theory proposed by Brown and Miller (1991) was used in this study and it was supported by other theories in analyzing the form and the position in adverb of manner found in the sentence structure. The study implemented qualitative method in library research. The data were taken from the novel entitled “*Harry Potter*” that was written by J.K Rowling. The The research suggests that there were one form of adverb of manner found in the novel entitled “*Harry Potter*”. The adverb of manner is filled in the sentence structure in the form of adverb of manner and prepositional phrase. Suffix -ly can be in the positive form of the adjective. The form of adverb of manner is in the prepositional phrase characterized by a preposition as the head of adverbial.

Keywords: Adverb of Manner; Syntax Analysis; Sentence Structure

I. Introduction

There are a question, subject and statements that are usually by word and it usually contains a subject and a verb. Phrases and sentences can be built up from constituent series (syntactic units) that can be served as grammatical function. There are arrangements and the form of word that can be related in a sentence. Many words can build some sentences in English as one unit. There are subject, verb, complement, object and adverbial (SVCOA) that can be found in a sentence. An adverb of manner can be found in the initial, medial and final position in a clause. Adverb of manner is usually formed from an adjective and followed by -ly suffix. An adverb of manner in the form of prepositional phrase is formed from preposition, followed by a noun phrase. The examples of adverbs of manner are *enviously*, *quickly*, *desperately*, and *hurriedly*. It can be seen that an adverb of manner explains about how the subject does an activity. An adverb of manner can provide more information about the manner, time, place,

frequency, or certainty. Adverbials are stated as the words groups in which an adverbial phrase can give us more informations about the verb. Adverbs of manner are in the forms of adverbs, adverb phrases, or prepositional phrases. Some classifications in adverbial are classified as an adverb of manner.

The theory that was used to analyze the form and position of adverb of manner was proposed by Brown and Miller (1992). It explained about adverb of manner in which the event can be described by the verb. An adverb of manner provided more informations about how the event is described by the verb. Adverbial of manner can analyze on how an action can be performed. It can be seen that an adverb of manner is formed by an adjective followed by -ly suffix. Adverb of manner is formed by adding 'ly' to an adjective.

It is stated that an adverb of manner can also be formed by an adjective, adverb phrase and prepositional phrase. By using the constituent structure presentation, an adverb of manner can be analyzed. The sentence structure is stated as syntactical identification by analyzing the constituent structure. The adverbial of manner can fill in some variations of its position. Adverb of manner can be positioned in the initial, medial, and end position. Brown and Miller (1992:95) stated that, adverbs of manner are stated as the items that most readily spring to mind as examples of the class adverb, especially those that are formed by the -ly suffix to a corresponding adjective form:

1. Happy \longrightarrow happily (Brown and Miller, 1991:95)
2. Vicious \longrightarrow viciously (Brown and Miller, 1991:95)

Brown and Miller (1992:94) stated that, adverb of manner indicated the manner in which the event described by the verb is carried out:

1. The dog bit the man *viciously* (Brown and Miller, 1991:94)
2. The man beat the dog *viciously* (Brown and Miller, 1991:95)
3. The man beat the dog *viciously* in the garden yesterday (Brown and Miller, 1991:95)

The form of adverb of manner in prepositional phrase is characterized by the preposition as the head of adverb of manner. Brown and Miller (1992:94) stated that, adverbs of manner are typically a prepositional phrase, as follows:

1. The man beat the dog *in a vicious manner* (Brown and Miller, 1991:94)
2. The man beat the dog *with apparent enjoyment* (Brown and Miller, 1991:94)
3. John stood on his head *with difficulty* (Brown and Miller, 1991:94)

There are three positions of adverb for the declarative form of the clause. Adverb of manner is placed in the initial position, medial position and final position. In the initial position, adverb of manner is placed before the subject. In the medial position, an adverb of manner comes before the verb. In the final position, adverb of manner is placed after an intransitive verb or any object and complement.

II. Methods

The novel entitled “*Harry Potter*” was used as the data source as there are many data of adverb of manner which were found in the data source. The data were collected through reading the data source found in the novel entitled “*Harry Potter*” in order to get the data of adverb of manner. The parts of research method are called as the data source, method and technique of collecting data and method and technique of analyzing data. The data sources and method and technique of collecting data can be the procedures used to collect certain data of adverb of manner. It analyzed the data taken from the sources and analyze data of adverb of manner found in the data source. The research was applied in the field of observation. The research was conducted by the researcher by taking data source containing adverb of manner found in the novel entitled “*Harry Potter*”.

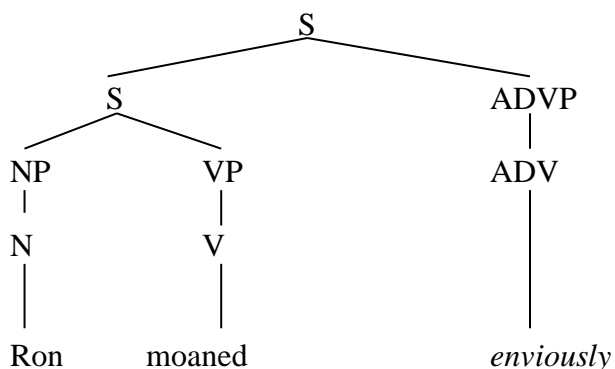

In analyzing data of adverb of manner, this research study applied qualitative method. The collected data can be presented descriptively. The collected data can be classified and analyzed, based on the forms and positions of adverb of manner. The form and position of adverb of manner can be analyzed by using the theory proposed by Brown and Miller (1991). After it, the researcher analyzed the form of adverb of manner (adverbial of manner which can be filled in the form of adverb of manner and adverbial of manner in the form of prepositional phrase). The forms of adverb of manner can be analyzed by using the tree diagram presentation. Finally, the position of adverb of manner can be analyzed by the researcher based on the theory proposed by Quirk and Greenbaum (1973).

III. Findings and Discussion

The form and position of adverb of manner are analyzed by using the tree diagram. It can be seen below, here are the presented data of adverb of manner and the analysis of them.

Datum 1

Ron moaned *enviously* (7)

a. Form

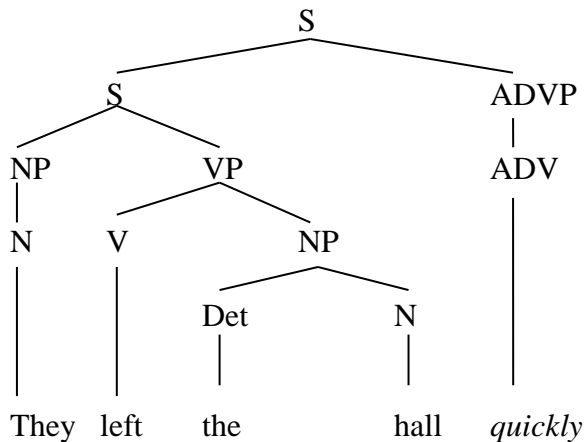

It can be seen from an adverb of manner in datum 1 that *enviously* fills the position of adverbial of manner in the final position. An adverb of manner *enviously* comes after a verb *moaned* that is used to emphasis on how *Ron moaned*. *Enviously* is an adverb of manner that is derived from an adjective *envious* and added by *-ly* suffix. In the process of the suffixation, adverb of manner is formed by: *envious* + (-ly) suffix becomes *enviously*. It can be seen from the analysis of the tree diagram in datum 1 that the sentence has three major constituents. Those are NP, VP, and ADVP. The form of adverb in the constituent is *enviously*. An adverb of manner *enviously* is an optional because it is not required by the verb of a sentence to form well sentence in the structure. It has function in the nucleus *Ron moaned*. An adverb of manner *enviously* is VP modifier. The NP *Ron* and VP *moaned* are part of the constituent structure above.

b. Position

It can be seen that an adverb of manner in data 1 that fills the position adverbial of manner in the constituent structure above is placed in the final position. An adverb of manner *enviously* in the constituent structure above occurs after VP *moaned*.

Datum 2

They left the hall *quickly*. (7)

a. Form

It can be seen from an adverb of manner in datum 2 that *quickly* fills the position of adverbial of manner in the final position. It can be seen that an adverb of manner *quickly* comes after a verb *left* that is used to emphasis on how *They left the hall*. *Quickly* is an adverb of manner that is derived from an adjective *quick* and added by *-ly* suffix. In the process of the suffixation, adverb of manner is formed by: *quick*+ (-ly) suffix becomes *quickly*. It can be

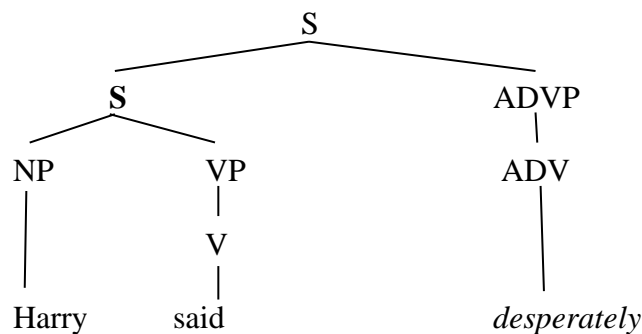

seen from the analysis of the tree diagram in datum 2 that the sentence has three major constituents. Those are NP, VP, and ADVP. The form of adverb in the constituent is *quickly*. An adverb of manner *quickly* is an optional because it is not required by the verb of a sentence to form well sentence in the structure. It has function in the nucleus *They left the hall*. An adverb of manner *quickly* is VP modifier. The NP *They* and VP *left* are part of the constituent structure above.

b. Position

It can be seen that an adverb of manner in datum 2 that fills the position adverbial of manner in the constituent structure above is placed in the final position. An adverb of manner *quickly* in the constituent structure above occurs after VP *left*.

Datum 3

Harry said *desperately*. (296)

a. Form

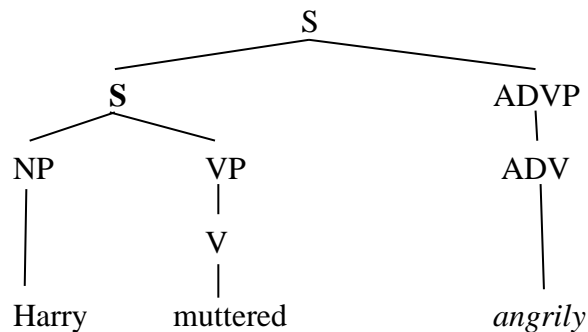

An adverb of manner in datum 3 found in the novel that *desperately* fills the position of adverbial of manner in the final position. An adverb of manner *desperately* comes after a verb *said* that is used to emphasis on how Harry said. *Desperately* is an adverb of manner that is derived from an adjective *desperate* and added by *-ly* suffix. In the process of the suffixation, adverb of manner is formed by: *desperate* + (-ly) suffix becomes *desperately*. It can be seen from the analysis of the tree diagram in datum 3 that the sentence has three major constituents. Those are NP, VP, and ADVP. The form of adverb in the constituent is *desperately*. An adverb of manner *desperately* is an optional because it is not required by the verb of a sentence to form well sentence in the structure. It has function in the nucleus *Harry said*. An adverb of manner *desperately* is VP modifier. The NP *Harry* and VP *said* are part of the constituent structure above.

b. Position

It can be seen that an adverb of manner in datum 3 that fills the position adverbial of manner in the constituent structure above is placed in the final position. An adverb of manner *desperately* in the constituent structure above occurs after VP *said*.

Datum 4

Harry muttered *angrily*. (306)

a. Form

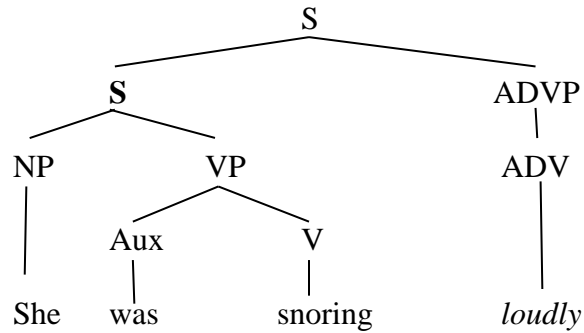

It can be seen from an adverb of manner in datum 4 that *angrily* fills the position of adverbial of manner in the final position. An adverb of manner *angrily* comes after a verb *muttered* that is used to emphasis on how *Harry muttered*. *Angrily* is an adverb of manner that is derived from an adjective *angry* and added by *-ly* suffix. In the process of the suffixation, adverb of manner is formed by: *angry* + (-ly) suffix becomes *angrily*. It can be seen from the analysis of the tree diagram in datum 4 that the sentence has three major constituents. Those are NP, VP, and ADVP. The form of adverb in the constituent is *angrily*. An adverb of manner *angrily* is an optional because it is not required by the verb of a sentence to form well sentence in the structure. It has function in the nucleus *Harry muttered*. An adverb of manner *regally* is VP modifier. The NP *Harry* and VP *muttered* are part of the constituent structure above.

b. Position

It can be seen that an adverb of manner in datum 4 that fills the position adverbial of manner in the constituent structure above is placed in the final position. An adverb of manner *angrily* in the constituent structure above occurs after VP *muttered*.

Data 5

Neville was snoring loudly. (309)

a. Form

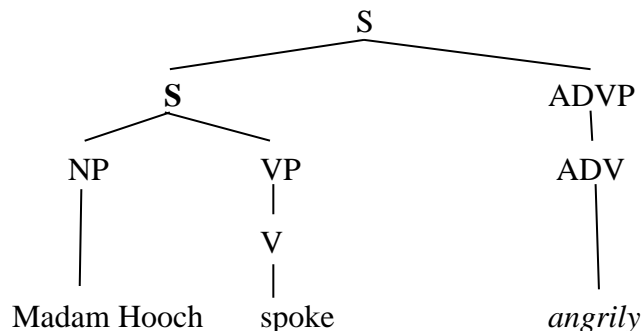

It can be seen from an adverb of manner in datum 5 that *loudly* fills the position of adverbial of manner in the final position. An adverb of manner *loudly* comes after a verb *was snoring* that is used to emphasis on how *she was snoring*. *Loudly* is an adverb of manner that is derived from an adjective *loud* and added by *-ly* suffix. In the process of the suffixation, adverb of manner is formed by: *loud* + *(-ly)* suffix becomes *loudly*. It can be seen from the analysis of the tree diagram in datum 5 that the sentence has three major constituents. Those are NP, VP, and ADVP. The form of adverb in the constituent is *loudly*. An adverb of manner *loudly* is an optional because it is not required by the verb of a sentence to form well sentence in the structure. It has function in the nucleus *She was snoring*. An adverb of manner *loudly* is VP modifier. The NP *she* and VP *was snoring* are part of the constituent structure above.

b. Position

It can be seen that an adverb of manner in datum 5 that fills the position adverbial of manner in the constituent structure above is placed in the final position. An adverb of manner *loudly* in the constituent structure above occurs after VP *was snoring*.

Datum 6

Madam Hooch spoke *angrily*. (317)

a. Form

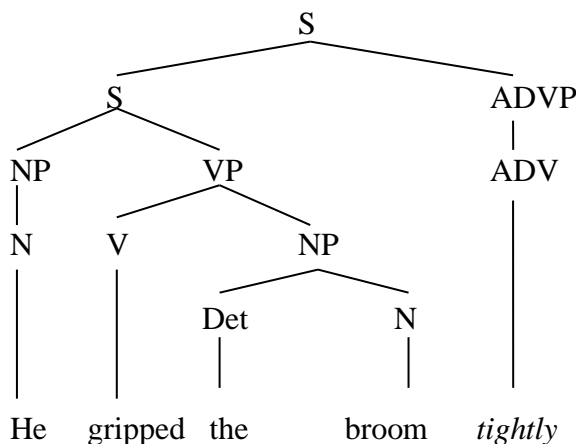

It can be seen from an adverb of manner in data that *angrily* fills the position of adverbial of manner in the final position. An adverb of manner *angrily* comes after a verb *spoke* that is used to emphasis on how *Madam Hooch spoke*. *Angrily* is an adverb of manner that is derived from an adjective *angry* and added by *-ly* suffix. In the process of the suffixation, adverb of manner is formed by: *angry* + (-ly) suffix becomes *angrily*. It can be seen from the analysis of the tree diagram in datum 6 that the sentence has three major constituents. Those are NP, VP, and ADVP. The form of adverb in the constituent is *angrily*. An adverb of manner *angrily* is an optional because it is not required by the verb of a sentence to form well sentence in the structure. It has function in the nucleus *Madam Hooch spoke*. An adverb of manner *angrily* is VP modifier. The NP *Madam Hooch* and VP *spoke* are part of the constituent structure above.

b. Position

It can be seen that an adverb of manner in datum 6 that fills the position adverbial of manner in the constituent structure above is placed in the final position. An adverb of manner *angrily* in the constituent structure above occurs after VP *spoke*.

Data 7

He gripped the broom tightly. (318)

a. Form

We can see from an adverb of manner in data 7 that *tightly* fills the position of adverbial of manner in the final position. An adverb of manner *tightly* comes after a verb *gripped* that is used to emphasis on how *He gripped the broom*. *Tightly* is an adverb of manner that is derived from an adjective *tight* and added by *-ly* suffix. In the process of the suffixation, adverb of manner is formed by: *tight*+ (-ly) suffix becomes *tightly*. It can be seen from the

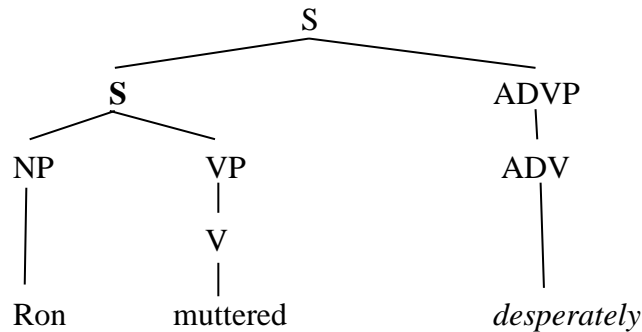

analysis of the tree diagram in data 4 that the sentence has three major constituents. Those are NP, VP, and ADVP. The form of adverb in the constituent is *regally*. An adverb of manner *tightly* is an optional because it is not required by the verb of a sentence to form well sentence in the structure. It has function in the nucleus *He gripped the broom*. An adverb of manner *tightly* is VP modifier. The NP *He gripped the broom* and VP *gripped* are part of the constituent structure above.

b. Position

It can be seen that an adverb of manner in datum 7 that fills the position adverbial of manner in the constituent structure above is placed in the final position. An adverb of manner *tightly* in the constituent structure above occurs after VP *gripped*.

Data 8

Ron muttered *desperately*. (321)

a. Form

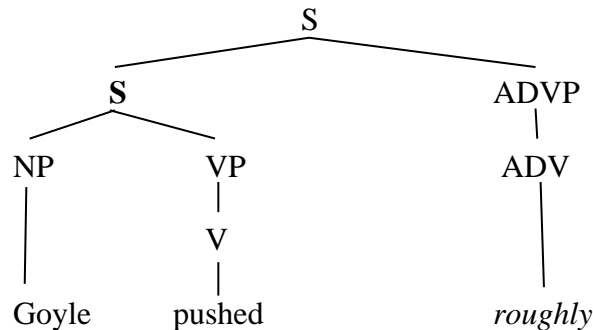

It can be seen from an adverb of manner in data 8 that *desperately* fills the position of adverbial of manner in the final position. An adverb of manner *desperately* comes after a verb *muttered* that is used to emphasis on how *Ron muttered*. *Desperately* is an adverb of manner that is derived from an adjective *desperate* and added by *-ly* suffix. In the process of the suffixation, adverb of manner is formed by: *desperate* + (-ly) suffix becomes *desperately*. It can be seen from the analysis of the tree diagram in data 8 that the sentence has three major constituents. Those are NP, VP, and ADVP. The form of adverb in the constituent is *desperately*. An adverb of manner *desperately* is an optional because it is not required by the verb of a sentence to form well sentence in the structure. It has function in the nucleus *his gaze moved*. An adverb of manner *desperately* is VP modifier. The NP *his gaze* and VP *moved* are part of the constituent structure above.

b. Position

It can be seen that an adverb of manner in datum 8 that fills the position adverbial of manner in the constituent structure above is placed in the final position. An adverb of manner *desperately* in the constituent structure above occurs after VP *muttered*.

Data 9

Goyle pushed *roughly*. (329)

a. Form

It can be seen from an adverb of manner in data 9 that *roughly* fills the position of adverbial of manner in the final position. An adverb of manner *roughly* comes after a verb *clicked* that is used to emphasis on how *Goyle pushed*. *Roughly* is an adverb of manner that is derived from an adjective *rough* and added by *-ly* suffix. In the process of the suffixation, adverb of manner is formed by: *rough*+ (*-ly*) suffix becomes *roughly*. It can be seen from the analysis of the tree diagram in datum 9 that the sentence has three major constituents. Those are NP, VP, and ADVP. The form of adverb in the constituent is *roughly*. An adverb of manner *roughly* is an optional because it is not required by the verb of a sentence to form well sentence in the structure. It has function in the nucleus *his gaze moved*. An adverb of manner *roughly* is VP modifier. The NP *Goyle* and VP *pushed* are part of the constituent structure above.

b. Position

It can be seen that an adverb of manner in datum 9 that fills the position adverbial of manner in the constituent structure above is placed in the final position. An adverb of manner *roughly* in the constituent structure above occurs after VP *pushed*.

IV. Conclusion

The form of adverb of manner and its positions of adverb of manner found in the clause and sentence structure found in the novel entitled "*The Lost Symbol*" are analyzed. The theory proposed by Brown and Miller (1991) was used in this study and it was supported by other theories in analyzing the form and the position in adverb of manner found in the sentence

structure. The study implemented qualitative method in library research. The data were taken from the novel entitled “*Harry Potter*” that was written by J.K Rowling. The The research suggests that there were one form of adverb of manner found in the novel entitled “*Harry Potter*”. The adverb of manner is filled in the sentence structure in the form of adverb of manner and prepositional phrase. Suffix –ly can be in the positive form of the adjective. The form of adverb of manner is in the prepositional phrase characterized by a preposition as the head of adverbial
